Recall of frozen vegan coconut fudge sandwiches over undeclared egg

The CDC says Blank Slate Creamery recalled vegan non-dairy frozen dessert coconut fudge sandwiches because they may contain undeclared egg, affecting people with egg allergies.

The Centers for Disease Control and Prevention (CDC) reports that Blank Slate Creamery of Ann Arbor, Michigan is recalling packaged vegan non-dairy frozen dessert coconut fudge sandwiches.

This matters if you have an egg allergy or severe sensitivity to eggs, because eating the product could trigger a serious or life-threatening allergic reaction. An allergic reaction is when the immune system reacts in a harmful way.

Check for the recalled item in your home and avoid eating it if you have an egg allergy or severe sensitivity to eggs.
